YO! I'AM JAISON

I'm an Indian solotraveler living out of a backpack since 2016, traveling to all kinds of places many tourists never consider. Cultures call to me, maps lie to me, and I'll go anywhere so long as there are friendly faces and wild spaces.

My goal is to inspire you to travel responsibly... and see how anyone can travel anywhere.

DESTINATIONS

Traveling to anypalce makes us happy but some places makes us unforgettable. Some of the unforgettable places that i travelled are given below

SWITZERLAND

Switzerland has been the world's most favourite holiday destination for decades now and the reason can be seen as soon as you get off the plane!

Switzerland is home to simple breathtaking scenery with the landscape being dotted with towering peaks, shimmering lakes and countless waterfalls. Switzerland has entertained tourists for a very long time and this means that here, you will be able to get tailored experiences like nowhere else. You can be a part of fascinating train journeys through pristine landscapes, walk on suspension bridges that seem to float between two mountains offering panoramic views, walk behind waterfalls and through frozen glaciers.

ISTANBUL

Turkey's capital city is another destination that offers a great mix of culture, food, and history. There are thousands of years of history here, starting with Ancient Greeks and Ancient Romans and leading up through the Ottoman Empire. There's a mix of the new and the timeless here unlike anywhere else. You can spend the day shopping and the night at a wonderful restaurant eating great Turkish food and dancing to Turkish music, then rise (very early) in the morning to the sound of the Ezan or morning Islamic call to prayer. It echoes across the rooftops as it's broadcast from loudspeakers set atop the minarets of the city's mosques.

MUNNAR

Munnar rises as three mountain streams merge -Mudrapuzha, Nallathanni and Kundala. 1,600 m above sea level, this hill station was once the summer resort of the erstwhile British Government in South India. One of the most sought after honeymoon destinations in Kerala, Munnar is replete with resorts and logding facilities that fit a wide rage of budgets. Sprawling tea plantations, picturesque towns, winding lanes and holiday facilities make this a popular resort town. Among the exotic flora found in the forests and grasslands here is the Neelakurinji. This flower which bathes the hills in blue once in every twelve years, will bloom next in 2030. Munnar also has the highest peak in South India, Anamudi, which towers over 2,695 m.

WANT TO GET LOST WITH PURPOSE?

After years of independent travel—and experiencing the positives and perils of tourism—I've designed immersive tours based on values I want to see more of in the travel industry: responsible tourism, sustainability. These are tours for people who don't like tours: the goal is to share my passion about these places with you while still giving you the freedom to explore and experience on your own.

DONT BE SHY.
